Who We Are and What We Do

Horse Feathers is an animal assisted therapy program that serves all veterans. We specialize in helping veterans with post traumatic stress and we also welcome veterans with physical challenges. The program involves pairing veterans with horses and other animals to facilitate self awareness and promote healing for those affected by emotional or physical trauma.

To realize this, **Horse Feathers** concentrates on allowing each veteran time to establish a connection with his or her animal partner. Our animals are primarily rescues that may have issues that often parallel those in veterans. This is why connecting with an animal can be so powerful. These sensitive animals will often mirror the behaviors of a veteran who is experiencing emotions that he or she has not recognized or been aware of.

Horse Feathers provides veterans with the opportunity to become comfortable around horses, to learn to groom, walk, and care for them, and eventually, to learn to drive horses in carts or wagons, or ride them. Both driving and riding options are available.
